Dear members of the Remnants Cricket Club,

I am writing to thank you for your kind collection of £253.50, which we received today.

Your donation helps to provide additional amenities for our patients and their families, as well as extra training and educational opportunities for our staff. It also enables us to support cutting-edge research, which is seeking to find new ways of treating and curing heart and lung disease.

We are so grateful for your support, it is greatly appreciated by everyone at Papworth Hospital and will enable us to continue to move forwards as a globally renowned centre of excellence, delivering the best care and treatment possible for our patients.

With thanks and best wishes

Daniel Saxton
Head of Corporate Services
